

The AQUA 150

Providing an unlimited supply of cold, fresh water, the Roller Grill AQUA150 is particularly well suited for use in any self-service environment, canteens, restaurants, hospitals, schools, leisure parks, etc. Directly connected to the mains supply, the AQUA150 produces a constant supply of chilled water, between +8 / +10°C, with an output of up to 150 ltr per hour. The two water outlets are controlled by electro-valves activated by push buttons.

The AQUA 150 uses R290 Hydrocarbon refrigerant gas. The water circuit is hermetically sealed with no exposure to air thereby preventing the formation of bacteria.

Supplied with triple action filter to prevent lime scale, chlorine and sediment build up

Weight	88Kg
Dimensions (mm)	400 x 440 x 1420
Power	1.25 Kw
Power Connection	13amp plug
Output	200 L/h
Temperature Range	+8 / +10
